-

1. MCM#1 Public Education: Stormwater Article for Your Community Newsletter, Email Blast, or Website

As part of our Member Service to our Phase II communities we are providing two stormwater education articles per year to Member communities that can be incorporated into a community newsletter, email blasts to resident, or posted on your website. This is the second article for this year. In February, through this list serve, CRWP provided an article on *Sensible Salting* (http://www.crowp.org/phase_2_implementation/mcm_1_2_public_education_involvement.htm). This second article titled *Rake It or Leave It* is focused on keeping raked leaves out of the storm drain and storm sewers. Please add any additional information regarding your communities' leaf pick-up program.

The *Rake It or Leave It* article can be found on the CRWP website (http://www.crowp.org/phase_2_implementation/mcm_1_2_public_education_involvement.htm). Please contact Rachel Webb at CRWP if there are any questions. (440.975.3870)

2. **MCM #4 Erosion and Sediment Control:** Development and Implementation of Effective Long-Term Maintenance Programs for Post-Construction Best Management Practices Workshop, September 30, 2009

See the CRWP website for the Agenda and Registration Information:

http://www.crwp.org/upcoming_events/upcoming_events.htm

Registration will begin the first week in September. Check the Ohio EPA website for postings: http://www.epa.ohio.gov/ocapp/storm_water.aspx

3. MCM #5 Post-Construction: SAVE THE DATE. Green Infrastructure in Northeast Ohio Workshop, November 4, 2009

http://www.crwp.org/pdf_files/2009_green_infrastructure_workshop_save_date.pdf
